

Professional Summary:

- Having 7+years of experience in **PeopleSoft Admin/Db**a implementation and Supporting PeopleSoft applications Like **HCM/FSCM** modules on Oracle Database and their supporting operating systems.
- Implementing PeopleSoft Internet architecture(PIA) on **Demo,Dev,Test,Production** Instances.
- Experience in configuration of **Application Server Domains and Process Scheduler** Setup.
- Performed Installation, configuration and maintained Oracle 10g/11g/12C databases on **UNIX, Linux** and **NT** Servers.
- Experience in **Project Migration and Data Migration.**
- Experience in generating **Compare Reports** between various environments.
- Worked on applying **Patches, Bundles and Tax Updates.**
- Configuring **Change Assistant** to apply **Bundles and Tax updates.**
- Maintaining integrity and internal consistency of the database using **DDDAUDIT, SYSAUDIT, ALTERAUDIT** reports periodically.
- Experienced in **Integration Broker** setup.
- Worked on applying Patches, Bundles and Tax Updates using **Change Assistant** and **PeopleSoft Update Manager (PUM).**
- Experience on **People Tools Upgrade.**
- Experience on **IB.**
- Experience on **PeopleSoft Refreshes.**
- Experience on **PeopleSoft Security.**
- Experienced in **COBOL Compilation** on Windows and Linux.
- Experience in load balancing of **Application server domains** and **Process Scheduler Server domains.**
- Installed **People Books** and configured the **Web Server** to access **People Books.**
- Experience in **Troubleshooting** of various servers like **Application Servers, Web Servers, and Process Scheduler Servers.**
- Involved in Regular **Backup/Recovery** of Oracle Database including **Logical & Physical Backups.**
- Experience in Applying **Database Patches.**
- Working on Capacity Planning For Table Spaces.
- Experience in Applying **Database Upgrading.**
- Experience in installing, maintaining, **Upgrading, Migrating** and **Patching Oracle** versions **10g/11g/12c.**
- Experience in **Database refreshes.**
- Experience on **Linux Admin.**
- Experience in **Rman** configuration.
- Experience in **Database Security Management: Users, Roles, Profile.**
- Taking **Hot and cold Backups.**
- Experience in resolving developer issues like **Resetting Passwords.**
- Supporting role in **Database Cloning.**
- Managing the size and file of the **Table spaces** and adding **Data files** to Table Spaces.
- Experience in multiplexing of **Control files.**
- Experience in **Data pump** Technology.
- Experience in Tuning of Application Server Domains, Process Scheduler Domains and Web Server Domains.

KEY SKILLS

TECHNOLOGY	TOOLS
------------	-------

ERP TOOLS	PeopleTools8.54/8.53/8.50,ChangeAssistant, IntegrationBroker, ApplicationDesigner,Configuration Manager, PeopleSoft Update Manager (PUM), and Data Mover.
APPLICATIONS	PeopleSoft HRMS/FSCM/CRM 9.0/9.1/9.2
APPLICATION SERVER	Tuxedo 10.3./12c
WEB SERVER	Web Logic 10.3/12c
OPERATING SYSTEMS	Windows Server 2012 R2/2008 R2/2003 Red hat Enterprise Linux 5/6 Oracle Enterprise Linux 5.4/6/7
DATABASE	Oracle 10gR2/11gR2/12c

EDUCATIONAL QUALIFICATION

M.ca.(Master of Computer Application) from Sri Venkateswara University, Tirupati in 2012 with (75%), Andhra Pradesh.

PROFESSIONAL EXPERIENCE

- Working as PeopleSoft Database Administrator with **Infosys** At Bangalore from May 2020 to Till Date (Parent Company-Gem Source India).
- Working as PeopleSoft Database Administrator with **Sify Technologies** At Bangalore from Oct 2019 to April 2020.
- Worked as PeopleSoft Database Administrator with **Wipro Technologies** At Bangalore from Oct 2018 to Oct 2019.
- Worked as PeopleSoft Administrator/ PeopleSoft DBA with **Sonata Software** Bangalore from June 2016 to August 2018.
- Worked as a PeopleSoft DBA with, **MoonStone Infotech Pvt.Ltd** Hyderabad from Nov 2013 to May 2016

RELEVANT EXPERIENCE

May 2020- Till Date

Project	PeopleSoft Admin Support
Client	Goldman Sach
Duration	May 2020-Till Date
Role	PeopleSoft Database Admin.
Environment	Application Version: HRMS,FSCM 9.2 , 8.9 People Tools Version: PT 8.56, PT 8.53 Database: Oracle 12c

- Supporting FSCM,HRMS Application as PeopleSoft DBA on 24*7 basis.
- PeopleSoft Database Administrator supporting FSCM,HRMS environments maintained on Oracle 12c,11g.
- PeopleSoft DBA supporting HRMS,FSCM 9.2 , 8.9 environments maintained on RHEL 4 and Oracle 12c 11g. PeopleSoft Internet Architecture (PIA) including UNIX file systems, application servers, web servers and batch servers.
- Migration of all PeopleSoft projects to DEV, TEST, PROD instances.
- Analysis of production issues raised by clients and providing solutions.
- Executing DDD Audit and SYS Audit and ALTER Audits.
- Generating Compare Reports..
- Experience on PeopleTools Patches.
- Experience on Tools upgrade.
- Experience on Certificates.
- Experience on PeopleSoft Refreshes.
- Experience on IB.
- Experience on PUM.
- Setting up report nodes and checking their posting status.
- Experience on PeopleSoft Security.
- Experience on Disk Space issues.
- Configuring and monitoring Process Scheduler and troubleshooting various issues related.
- Involved in the Performance of the databases and application by creating multiple domains across the instances.
- Troubleshooting Tuxedo Application Server, Process Scheduler & Web Server.
- Database Administration, Performance Tuning and support for the database requirements.
- Creating database users and by setting the default temporary Table spaces and assigning quotas, roles, privileges, and profiles to users.
- Taking logical backups and logical incremental backups.
- Taking exp/imp backups
- Taking cold backups and hot backups.
- Experience in multiplexing of control files.
- Involving in performance tuning.
- Experience in Datapump Technology.
- Create and Managing Database Users, Roles, Profiles and Granting Permissions.
- Checking log file for any database errors.
- Checking alter log files and trace files.
- Performing database refreshing.
- Load balancing of Application server & Webserver
- Installed and Configured Change Assistant to apply PUM image.

RELEVANT EXPERIENCE

Oct 2019- April2020

Project	PeopleSoft Admin Support
Client	PPS, MCC, ARP, and CoT
Duration	Oct 2019-April 2020
Role	PeopleSoft Database Admin.

Environment	Application Version: HRMS 9.2, FSCM 9.2 People Tools Version: PT 8.56,PT8.53 Database: Oracle 12c
--------------------	--

- Supporting HCM and FSCM Application as PeopleSoft DBA on 24*7 basis.
- PeopleSoft Database Administrator supporting HCM environments maintained on Oracle 10g.
- PeopleSoft DBA supporting HCM 9.1 environments maintained on RHEL 4 and Oracle 10g. PeopleSoft Internet Architecture (PIA) including UNIX file systems, application servers, web servers and batch servers.
- Migration of all PeopleSoft projects to DEV, TEST, PROD instances.
- Analysis of production issues raised by clients and providing solutions.
- Executing DDD Audit and SYS Audit and ALTER Audits.
- Generating Compare Reports.
- Rman configuration for backup.
- Configuring and monitoring Process Scheduler and troubleshooting various issues related.
- Involved in the Performance of the databases and application by creating multiple domains across the instances.
- Troubleshooting Tuxedo Application Server, Process Scheduler & Web Server.
- Database Administration, Performance Tuning and support for the database requirements.
- Creating database users and by setting the default temporary Table spaces and assigning quotas, roles, privileges, and profiles to users.
- Taking logical backups and logical incremental backups.
- Taking exp/imp backups
- Taking cold backups and hot backups.
- Experience in multiplexing of control files.
- Involving in performance tuning.
- Experience on PeopleSoft Refreshes.
- Experience in Datapump Technology.
- Create and Managing Database Users, Roles, Profiles and Granting Permissions.
- Checking log file for any database errors.
- Checking alter log files and trace files.
- Performing database refreshing.
- Load balancing of Application server & Webserver Performed Database Refreshes, Imports, Exports and Backups.
- Installed and Configured Change Assistant to apply PUM image.

RELEVANT EXPERIENCE

Oct 2018-Oct 2019

Project	PeopleSoft Admin Support
Client	NABARD
Duration	Oct 2018-Till Date
Role	PeopleSoft Database Admin.
Environment	Application Version: HRMS 9.2, FSCM 9.2 People Tools Version: PT 8.54,PT8.55 Database:Oracle 12c

Roles and Responsibilities:

- Experience in installing, maintaining, Upgrading, Migrating and Patching Oracle versions 10g/11g/12c.
- Experienced in Integration Broker setup.
- Worked on applying Patches, Bundles and Tax Updates using Change Assistant and PeopleSoft Update Manager (PUM).
- Experience in People Tools Upgrade.
- Experienced in COBOL Compilation on Windows and Linux.
- Experience in Project Migration and Data Migration.
- Experienced in Integration Broker setup
- Experience in Applying Database Patches.
- Experience in Applying Database Upgrading.
- Experience in installing, maintaining, Upgrading, Migrating and Patching.
- Experience in Database Security Management: Users, Roles, Profile.
- Taking Hot and cold Backups.
- Experience in resolving developer issues like Resetting Passwords.
- Managing the size and file of the Table spaces and adding Data files to Table Spaces.
- Experience in multiplexing of Control files.
- Experience on PeopleSoft Refreshes.
- Experience in Datapump Technology.
- Create and Managing Database Users, Roles, Profiles and Granting Permissions.
- Performing database refreshing.
- Load balancing of Application server & Web server, Performed Database Refreshes,
- Installed and Configured Change Assistant to apply PUM image.
- Migration of all PeopleSoft projects to DEV, TEST, PROD instances.
- Executing DDD Audit and SYS Audit and ALTER Audits.
- Generating Compare Reports.

PAST EXPERIENCE**June 2016-August 2018**

Project	PeopleSoft Admin Support
Client	Cdi Corporation
Duration	June 2016 – August 2018
Role	PeopleSoft Admin.
Environment	Application Version: HRMS 9.2, FSCM 9.2 People Tools Version: PT 8.54 Database: 12c

Roles and Responsibilities:

- Supporting HCM and FSCM Application as PeopleSoft DBA on 24*7 basis.
- PeopleSoft Database Administrator supporting HCM environments maintained on Oracle 10g.
- PeopleSoft DBA supporting HCM 9.1 environments maintained on RHEL 4 and Oracle 10g.

PeopleSoft Internet Architecture (PIA) including UNIX file systems, application servers, web servers and batch servers.

- Migration of all PeopleSoft projects to DEV, TEST, PROD instances.
- Analysis of production issues raised by clients and providing solutions.
- Executing DDD Audit and SYS Audit and ALTER Audits.

- Checking log file for any database errors.
- Checking alter log files and trace files.
- Performing database refreshing.
- Load balancing of Application server & Web server Performed Database Refreshes, Imports, Exports and Backups.
- Installed and Configured Change Assistant to apply PUM image.

PAST EXPERIENCE

Nov 2013– May 2016

Project	Implementation, Configure and Production Support of PeopleSoft Applications and Databases.
Client	Perkin Elmer
Duration	Nov2013 – May 2016
Role	PeopleSoft Admin.
Environment	Application Version: HCM9.2,9.1, FSCM 9.2,9.1 People Tools Version: PT 8.53,50 Database:10g/11g

Roles and Responsibilities:

- Monitoring the day-to-day working of the system.
- Created Application Server Domains and Process Scheduler Domains

- Installed PIA, configured PIA for all the instances of DEMO, DEV, TEST CONFIG, STG and PROD databases
- Created Databases DEMO, DEV, TEST, CONFIG and PRODUCTION databases on UNIX
- Experience on Migration of data and PeopleSoft objects.
- Involved in the Performance of the databases and application by creating multiple domains across the instances
- Prepared and maintained the documentation of all the installation and configurations of databases and applications
- Configuration of Integration Broker, defining Gateway, creating and configuring nodes for HRMS and Finance
- Install People Books for HRMS, Financials.
- Load balancing of Application server & Web server Performed Database Refreshes, Imports, Exports and Backups.
- Report Node configurations.
- Executing DDDAUDIT, SYSAUDIT and ALTER Audit.
- Worked on Project Migrations and Data Migrations.
- Generating Compare Reports.
- Configuring and monitoring Process Scheduler and troubleshooting various issues related.
- Involved in the Performance of the databases and application by creating multiple domains across the instances.
- Troubleshooting of Application Server Domains, Process Scheduler Domains and Web Server Domains.
- Setup Application Security using User Profiles, Roles and Permission lists.
- Refreshing PeopleSoft test environment for synchronisation to production.
- Applying fixes and patches bundles for PeopleSoft FSCM9.2 and HRMS9.2 using PeopleSoft PUM.
- Performed Database Refreshes, Imports, Exports and Backups.
- Involved in Logical Backups using Data Pump Technology.
